

REIT

Quarter-End Performance Review—1Q19

REITs outperformed the S&P 500 for the quarter at 16.7% vs. 13.6%. Our portfolio narrowly lagged the NAREIT Index for the quarter, as strong performance among our Health Care REIT selections was offset by the underperformance of our Retail REITs. Almost all equity REIT property sectors delivered double-digit total returns in the first quarter of 2019. Infrastructure REITs, which consist mainly of cell-tower properties, were the top-performing sector, followed by industrial and timber REITs.

REITs have been able to issue debt at historically low levels over the past 10 years, while growing net operating income (NOI). This low interest rate-environment will likely continue into the near future as Federal Reserve Chairman Jerome Powell has said the central bank will take a “patient approach” as it weighs future interest-rate hikes. Since mid-2006, the ratio of interest expense to NOI

⁽⁴⁾Primary benchmark.

REIT

Quarter-End Performance Review—1Q19

has slowly declined from approximately 35% down to 20% at the end of the fourth quarter, freeing up cash flow for increased dividends. The ratio has remained flat over the latest tightening cycle, as many REIT managers were able to refinance a portion of their debt before rates started to rise.

Strong share price returns, along with dividend income and a low correlation with other segments of the stock market, continue to make REITs an important component in a well-diversified portfolio. The dividend yield of the NAREIT Index finished the quarter at 4.1%, compared to 2.0% for the S&P 500.

CONTRIBUTORS TO RETURN⁽¹⁾⁽³⁾

Company Name	Average Weight ⁽²⁾	Contribution to Return	Comments
TOP THREE CONTRIBUTORS—REIT			
CareTrust REIT	6.78%	1.83%	CareTrust REIT is a health care REIT that owns and administers housing for seniors and other healthcare-related properties. CareTrust owns a diversified portfolio of 215 properties across 27 states, including skilled nursing, assisted living and independent living facilities. CareTrust continues to expand, acquiring \$100 million in new assets and adding another operator to its expanding tenant pool.
Prologis	5.01%	1.11%	Prologis is a global leader in logistics real estate and, as of December 31, 2018, the company owned approximately 768 million square feet in 19 countries. Prologis leases distribution facilities to 5,100 customers in two major categories: business-to-business and retail/online fulfillment. Core funds from operations per diluted shares was \$0.80 for 4th quarter 2018 compared with \$0.67 for the same quarter in 2017.
PS Business Parks	5.54%	1.09%	PS Business Parks is an office REIT that owns and operates approximately 28.2 million rentable square feet of commercial space in 6 states: California, Florida, Maryland, Texas, Virginia and Washington, in addition to a 95% interest in 395 apartments. Net income allocable to common shareholders was \$31.5 million for 4th quarter 2018, an increase of \$10.3 million, or 48.9%, for the same period in 2017.
BOTTOM THREE CONTRIBUTORS—REIT			
EastGroup Properties	0.60%	0.13%	EastGroup Properties is an equity real estate investment trust focused on industrial properties in major Sunbelt markets with emphasis in Florida, Texas, Arizona, California and North Carolina. EastGroup has maintained or increased its dividend for 26 consecutive years. EastGroup was purchased in the portfolio on March 20, 2019.
STORE Capital	0.60%	0.18%	STORE Capital is an internally managed net-lease real estate investment trust that manages Single Tenant Operational Real Estate. The portfolio consists of 2,255 properties across 49 states with a 99.6% occupancy rate across service, retail and manufacturing industries. Total revenues were \$146.7 million for the 4th quarter of 2018, an increase of 22.1% from \$120.1 million in the 4th quarter of 2017. STORE Capital was purchased in the portfolio on March 20, 2019.
CoreCivic	3.12%	0.27%	CoreCivic is the nation's largest owner of partnership correctional, detention and residential reentry facilities comprised of 44 owned and operated facilities with approximately 64,000 beds and 7 managed-only facilities with approximately 8,800 beds. On March 5, 2019, J.P. Morgan announced it would no longer finance private prison operators. There is significant risk to this stock due to social-risk management, and we exited the position on March 20, 2019.

PERFORMANCE

If Renaissance or benchmark performance is shown, it represents historically achieved results, and is no guarantee of future performance. All performance is shown in U.S. dollars unless otherwise stated. Future investments may be made under materially different economic conditions, in different securities and using different investment strategies and these differences may have a significant effect on the results portrayed. Each of these material market or economic conditions may or may not be repeated. Therefore, there may be sharp differences between the benchmark or Renaissance performance shown and the actual performance results achieved by any particular client. Benchmark results are shown for comparison purposes only. The benchmark presented represents unmanaged portfolios whose characteristics differ from the composite portfolios; however, they tend to represent the investment environment existing during the time periods shown. The benchmark cannot be invested in directly. The returns of the benchmark do not include any transaction costs, management fees or other costs. The holdings of the client portfolios in our composites may differ significantly from the securities that comprise the benchmark shown. The benchmark has been selected to represent what Renaissance believes is an appropriate benchmark with which to compare the composite performance.

The value of an investment may fall as well as rise. Please note that different types of investments involve varying degrees of risk and there can be no assurance that any specific investment will either be suitable or profitable for a client or prospective client's investment portfolio. Investor principal is not guaranteed and investors may not receive the full amount of their investment at the time of sale if asset values have fallen. No assurance can be given that an investor will not lose invested capital. Consultants supplied with these performance results are advised to use this data in accordance with SEC guidelines. The actual performance achieved by a client portfolio may be affected by a variety of factors, including the initial balance of the account, the timing and amount of any additions to or withdrawals from the portfolio, changes made to the account to reflect the specific investment needs or preferences of the client, durations and timing of participation as a RIM client, and a client portfolio's risk tolerance, investment objectives, and investment time horizon. All investments carry a certain degree of risk, including the loss of principal and are not guaranteed by the U.S. government.

	FINAL 12/31/2018								

* Not meaningful figure due to five or fewer accounts invested for the entire year.

** Firm Assets do not include UMA program assets for GIPS purposes.

As of 12/31/2018, Renaissance managed an additional \$2,157.0 million in UMA programs, totaling \$4,199.2 in assets under management and shown as supplemental information to the GIPS compliant presentation.

Renaissance Investment Management (RIM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Renaissance has been independently verified for the periods from January 1, 2006 through June 30, 2018.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The REIT Institutional Composite has been examined for the periods from January 1, 2006 through June 30, 2018. The verification and performance examination reports are available upon request.

Firm Definition: The Renaissance Group LLC, which does business as Renaissance Investment Management (RIM), is a registered investment advisor established in 1978, with an office in Covington, KY. RIM is an affiliate of Affiliated Managers Group based in West Palm Beach, FL. RIM manages equity, tactical, balanced and fixed income assets for a variety of clients including high net worth, institutional and sub-advisory relationships. A complete list and description of the Firm's composites is available upon request.

Composite Composition: The REIT Institutional Composite portfolios consist of approximately 20 equities, which focus on financially strong; attractively priced real estate investment trusts (REITs). The REIT Institutional Composite was created on January 1, 2005 and includes all fee paying, fully discretionary, non-tax managed, non-wrap REIT accounts. RIM does not have non-fee paying portfolios. RIM will add new fully discretionary portfolios to the composite at the first full month under management. RIM will exclude terminated portfolios from the composite after the last full month they were under management. Composite dispersion is measured using an asset-weighted standard deviation of returns of the portfolios.

Calculation of Performance Returns: Performance is calculated using total returns. Monthly composite performance is asset-weighted using beginning-of-period values. Rates of return are time-weighted with geometric linking of monthly returns. Valuations and returns are computed and stated in U.S. dollars. Account performance is based on total assets in the account, including cash and cash equivalents. Performance is actual performance.

RIM has chosen to present performance both gross- and net-of-fees. The gross-of-fee performance returns are presented before deduction of management and custodial fees but after the deduction of all trading expenses. Net performance is reported after the deduction of all trading costs and actual RIM management fees. These gross- and net-of-fee investment results for the Renaissance REIT Institutional Composite include reinvestment of dividends and other earnings. Clients' returns will be reduced by the advisory fee and any other expenses that may be incurred in the management of the client's investment advisory account. For example, if the gross annualized return of an account over a five-year period were 5.0%, deducting one twelfth of an annual advisory fee of 90 basis points each month on the ending monthly account balance would produce a cumulative net return of 22.7%. The cumulative gross return at 5.0% per annum over a five-year period would be 28.3%. A \$1 million starting portfolio would thus have an ending net market value of \$1,227,096, \$56,262 less than the gross return ending value of \$1,283,359. There is no minimum asset size for inclusion in the composite. RIM uses trade date accounting and income is accrued. Actual performance may differ from composite returns, depending on the size of the account, brokerage commissions, investment guidelines and/or restrictions, inception date and other factors. After-tax results will vary from the returns presented herein for those accounts that are subject to taxation. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

Standard Deviation: The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. According to the GIPS Standards, this is not required for periods prior to 2011.

Investment Management Fees: RIM's fees are based on account size. The standard RIM fee schedule for the REIT Strategy for direct-managed accounts is as follows: First \$5 million - .75%, Next \$5 million - .70%, Next \$5 million - .65%, Next \$5 million - .60%, Amounts over \$20 million - .55%. Investment advisory fees are described in Part 2A of RIM's Form ADV.

Benchmark: The FTSE NAREIT Composite US Real Estate Index is calculated by the FTSE and includes all tax-qualified REITs listed on the New York Stock Exchange, American Stock Exchange, and the NASDAQ National Market List that also meet minimum size, liquidity and free float criteria. The FTSE is a registered trademark of the London Stock Exchange Plc and The Financial Times Limited. The NAREIT index names are registered trademarks of the National Association of Real Estate Investment Trusts. RIM compares its composite returns to a variety of market indices such as the FTSE NAREIT. This index is shown for comparison purposes only. We are not trying to explicitly manage to this benchmark. This index represents unmanaged portfolios whose characteristics differ from the composite portfolios; however, they tend to represent the investment environment existing during the time periods shown. The index cannot be invested in directly. The returns of the index do not include any transaction costs, management fees or other costs. The holdings of the client portfolios in our composites may differ significantly from the securities that comprise the index shown. The index has been selected to represent what RIM believes is an appropriate benchmark with which to compare the composite performance.

Other: Performance data quoted in any Renaissance presentation represents historically achieved results, and is no guarantee of future performance. Future investments may be made under materially different economic conditions, in different securities and using different investment strategies and these differences may have a significant effect on the results portrayed. Each of these material market or economic conditions may or may not be repeated. Therefore, there may be sharp differences between the performance shown and the actual performance results achieved by any particular client. The value of an investment may fall as well as rise. Please note that different types of investments involve varying degrees of risk and there can be no assurance that any specific investment will either be suitable or profitable for a client or prospective client's investment portfolio. Investor principal is not guaranteed and investors may not receive the full amount of their investment at the time of sale if asset values have fallen. No assurance can be given that an investor will not lose invested capital. Consultants supplied with these performance results are advised to use this data in accordance with SEC guidelines. The actual performance achieved by a client portfolio may be affected by a variety of factors, including the initial balance of the account, the timing and amount of any additions to or withdrawals from the portfolio, changes made to the account to reflect the specific investment needs or preferences of the client, duration and timing of participation as a RIM client, and a client portfolio's risk tolerance, investment objectives, and investment time horizon. All investments carry a certain degree of risk, including the loss of principal and are not guaranteed by the U.S. government.

Risks of REIT Strategy: REIT Institutional Composite returns may show a high level of variability. In addition to market risk, the majority of any additional risk in these portfolios is related to specific REIT selection, and RIM will have significant exposure to individual securities.
